

Driven by our commitment to fair pricing

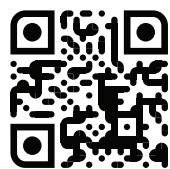

Farelanes was established with the premise that “lane pricing” is one of the most challenging aspects of daily freight transportation.

Farelanes provides an unparalleled solution to this industry-wide concern: the cost of moving a load from one location to another.

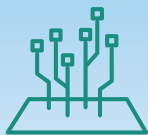

With Farelanes, you can obtain accurate and up-to-date pricing information, down to the cent.

Moreover, our user-friendly web applications and desktop controls, including tickers and scopes, offer real-time access to the lanes you monitor and utilize. Additionally, tickers can be customized for enhanced tracking.

The journey of a thousand accurate quotes begins with your visit to Farelanes.com, where you'll get the 411 on everything we have to offer.

AI INFUSION Farelanes AI-infused tech derives a rate in real time, and shows you 4 month, 2 month, 30-day, 15-day, 7-day 3 -day, and same day prices for any lane, specific to the type of transport and city/lane pairs. Farelanes is the ONLY pricing solution that TRULY knows where ALL of their data comes from and the accuracy that accompanies it. You will always know the total cost of a lane, accessorials and all, down to the specific zip code.

REAL TIME ACCURACY You need to know the real, accurate price for a lane, not a range. Because Farelanes provides you with spot market prices based on real, paid invoices, it is the most accurate price you can get. In these difficult economic times, maximizing profit and minimizing risk is the name of the game. With Farelanes data, you know exactly what lanes cost, and can budget accordingly.

UNMATCHED INTEGRATION If you use a TMS or 3PL, ask them if they use Farelanes data. Every day, more and more industry players are finding that the Farelanes data gives a competitive edge over the competition. Get Farelanes for yourself and be in the know.

EVER EXPANDING OPTIONS Farelanes has a variety of products designed to give you the answers you need. Silver covers the essentials. Gold provides more features including unlimited favorite lanes and spreadsheet RFP/RFQ support.
